ATTENDANCE

To report absences please call 532-3079 between the hours of 7:30 a.m.—3:15 p.m. A handwritten note must follow.

If a student is absent, it is **essential** to bring a written excuse from a parent or guardian to the Office upon returning to school and before entering any classes. The written excuse must **include the exact** reason for the absence.

A model excuse note is shown below:

Date _____

To The Principal/Attendance Office: Please excuse the absence of my son, John Smith, on Thursday, May 7, 2013, as he had a sore throat. If you have any questions, please contact me at my home (532-1860) or at my work (593- 1860).

Sincerely, Mrs. James Smith

The following constitute valid reasons for excused absences: a personal illness, an appearance in court when required by law, a disciplinary action (i.e., short-term suspension, long-term suspension, or emergency expulsion), observance of a religious holiday, a family emergency approved by the Superintendent, principal or designee, medical and dental appointments, and a planned family activity which has been pre-approved by the Superintendent, principal or designee. In all cases, the Superintendent, principal or designee determines whether an absence is excused or unexcused.

Daily attendance and active participation in each class is a critical part of the learning process. Grades can be impacted by poor attendance.

Students are expected to attend all assigned classes each day. Teachers shall keep a record of absence and tardiness. The student is responsible to attend all classes (unless excused for a school activity) and actively engage in the day's lesson. The student's attendance in the class is crucial to the student demonstrating proficiency in the subject. Excessive absences (more than ten excused or unexcused) may cause the student to be ineligible to earn credit in the class. Unexcused absences may be regarded as truancy. After ten absences per semester, the teacher will request that the attendance committee review the student attendance for loss of credit. Parents, please keep track of all absences so you can make an appeal to the attendance committee if needed.

Students with truancy problems will be referred to the court. The court may fine the family \$25 per day for each additional absence and could order detention of the student for truancy.

Students are responsible for all materials/assignments/tests covered in class whether present or not. The following procedures and policies are designed to help students learn responsibility, accept personal accountability, and increase their potential for success.

RESPONSIBILITY FOR ATTENDANCE

Student and parents must accept full responsibility for regular school attendance. Failure to do so may result in loss of credit and grades, removal from class or removal from school.

ADMIT SLIPS

Admission slips for absences are written before school in the morning. It is the responsibility of the student to obtain an admit slip before classes begin.

EARLY DISMISSAL/LEAVING CAMPUS

Sexual Harassment School Policy

SEXUAL HARASSMENT

This district is committed to a positive and productive education and working environment free from discrimination, including sexual harassment. The district prohibits sexual harassment of students, employees and others involved in school district activities. Sexual harassment occurs when:

- A. Submitting to the harasser's sexual demands is a stated or implied condition of obtaining an education or work opportunity or other benefit;
- B. Submission to or rejection of sexual demands is a factor in an academic, work or other school-related decision affecting an individual; or
- C. Unwelcome sexual or gender-directed conduct or communication interferes with an individual's performance or creates an intimidating, hostile or offensive environment.

Sexual harassment can occur adult to student, student to adult, student to student, adult to adult, male to female, female to male, male to male and female to female.

The district will take prompt, equitable and remedial action within its authority on reports, complaints and grievances alleging sexual harassment that come to the attention of the district, either formally or informally. Allegations of criminal misconduct will be reported to law enforcement and suspected child abuse will be reported to law enforcement or Child Protective Services. Persons found to have been subjected to sexual harassment will have appropriate school district services made reasonably available to them and adverse consequences of the harassment shall be reviewed and remedied, as appropriate. Engaging in sexual harassment will result in appropriate discipline or other appropriate sanctions against offending students, staff and contractors. Anyone else who engages in sexual harassment on school property or at school activities will have their access to school property and activities restricted, as appropriate.

Retaliation against any person who makes or is a witness in a sexual harassment complaint is prohibited and will result in appropriate discipline. The district will take appropriate actions to protect involved persons from retaliation.

It is a violation of this policy to knowingly report false allegations of sexual harassment. Persons found to knowingly report or corroborate false allegations will be subject to appropriate discipline. The superintendent shall develop and implement formal and informal procedures for receiving, investigating and resolving complaints or reports of sexual harassment. The procedures will include reasonable and prompt time lines and delineate staff responsibilities under this policy. All staff are responsible for receiving informal complaints and reports of sexual harassment and informing appropriate district personnel of the complaint or report for investigation and resolution. All staff are also responsible for directing complainants to the formal complaint process.

The superintendent shall develop procedures to provide age-appropriate information and education to district staff, students, parents and volunteers regarding this policy and the recognition and prevention of sexual harassment. At a minimum sexual harassment recognition and prevention and the elements of

this policy will be included in staff, student and regular volunteer orientation. This policy shall be posted in each district building in a place available to staff, students, parents, volunteers and visitors. The policy shall be reproduced in each student, staff, volunteer and parent handbook.

The superintendent shall make an annual report to the board reviewing the use and efficacy of this policy and related procedures. Recommendations for changes to this policy, if applicable, shall be included in the report. The superintendent is encouraged to involve staff, students, and volunteers and parents in the review process.

Sexual Harassment

Informal Complaint Process: Anyone may use informal procedures to report and resolve complaints of sexual harassment. Informal reports may be made to any staff member, although staff shall always inform complainants of their right to and the process for filing a formal complaint. Staff shall also direct potential complainants to an appropriate staff member who can explain the informal and formal complaint processes and what a complainant can expect. Staff shall also inform an appropriate supervisor or professional staff member when they receive complaints of sexual harassment, especially when the complaint is beyond their training to resolve or alleges serious misconduct. Informal remedies include an opportunity for the complainant to explain to the alleged harasser that his or her conduct is unwelcome, offensive or inappropriate, either in writing or face-to-face; a statement from a staff member to the alleged harasser that the alleged conduct is not appropriate and could lead to discipline if proven or repeated; or a general public statement from an administrator in a building reviewing the district sexual harassment policy without identifying the complainant. Informal complaints may become formal complaints at the request of the complainant, parent, guardian, or because the district believes the complaint needs to be more thoroughly investigated.

Formal Complaint Process: Anyone may initiate a formal complaint of sexual harassment, even if the informal complaint process is being utilized. Potential complainants who wish to have the district hold their identity confidential shall be informed that the district will almost assuredly face due process requirements that will make available all of the information that the district has to the accused. The district will, however, fully implement the anti-retaliation provisions of this policy to protect complainants and witnesses. Student complainants and witnesses may have a trusted adult with them during any district-initiated investigatory activities. The superintendent or designated compliance officer (hereinafter referred to as the compliance officer) may conclude that the district needs to conduct an investigation based on information in his or her possession regardless of the complainant's interest in filing a formal complaint. The following process shall be followed:

- A. The compliance officer shall receive and investigate all formal, written complaints of sexual harassment, or information in the compliance officer's possession that the officer believes requires further investigation.

- B. All formal complaints shall be in writing; shall be signed by the complainant; and shall set forth the specific acts, conditions or circumstances alleged to have occurred and to constitute sexual harassment. The compliance officer may draft the complaint based on the report of the complainant, for the complainant to review and sign.
- C. When the investigation is completed the compliance officer shall compile a full written report of the complaint and the results of the investigation. If the matter has not been resolved to the complainant's satisfaction, the superintendent shall take further action on the report.
- D. The superintendent shall respond in writing to the complainant and the accused within thirty days stating:
 - 1. That the district does not have adequate evidence to conclude that harassment occurred:
 - 2. Corrective actions that the district intends to take; and/or
 - 3. That the investigation is incomplete to date and will be continuing.
- E. Corrective measures deemed necessary will be instituted as quickly as possible, but in no event more than thirty days after the superintendent's written response, unless the accused is appealing the imposition of discipline and the district is barred by due process considerations or a lawful order from imposing the discipline until the appeal process is concluded.

If a student remains aggrieved by the superintendent's response, he or she may pursue the complaint as one of sexual discrimination pursuant to Policy 3210, Nondiscrimination. Similarly staff may pursue complaints further through the appropriate collective bargaining agreement process or anti-discrimination policy.

A fixed component of all district orientation sessions for staff, students and regular volunteers shall introduce the elements of this policy. Staff will be provided information on recognizing and preventing sexual harassment. Staff shall be fully informed of the formal and informal complaint processes and their roles and responsibilities under the policy and procedure. Certificated staff shall be reminded of their legal responsibility to report suspected child abuse, and how that responsibility may be implicated by some allegations of sexual harassment. Regular volunteers shall get the portions of this component of orientation relevant to their rights and responsibilities.

Students will be provided with age-appropriate information on the recognition and prevention of sexual harassment and their rights and responsibilities under this and other district policies and rules at student orientation sessions and on other appropriate occasions, which may include parents. Parents shall be provided with copies of this policy and procedure and appropriate materials on the recognition and prevention of sexual harassment.

As part of the information on the recognition and prevention of sexual harassment staff, volunteers, students and parents will be informed that sexual harassment may include, but is not limited to:

- A. Demands for sexual favors in exchange for preferential treatment or something of value;

- B. Stating or implying that a person will lose something if he or she does not submit to a sexual request;
- C. Penalizing a person for refusing to submit to a sexual advance, or providing a benefit to someone who does;
- D. Making unwelcome, offensive or inappropriate sexually suggestive remarks comments, gestures, or jokes; or remarks of a sexual nature about a person's appearance, gender or conduct;
- E. Using derogatory sexual terms for a person;
- F. Standing too close, inappropriately touching, cornering or stalking a person; or
- G. Displaying offensive or inappropriate sexual illustrations on school property.

District School Policy 3207

PROHIBITION OF HARASSMENT, INTIMIDATION AND BULLYING

The District is committed to a safe and civil educational environment for all students, employees, volunteers and patrons, free from harassment, intimidation or bullying. "Harassment, intimidation or bullying" means any intentionally written message or image, including those that are electronically transmitted, a verbal, or physical act, including but not limited to one shown to be motivated by any characteristic in RCW 9A.36.080(3), (race, color, religion, ancestry, national origin, gender, sexual orientation or mental or physical disability), or other distinguishing characteristics, when an act:

- Physically harms a student or damages the student's property; or
- Has the effect of substantially interfering with a student's education; or
- Is so severe, persistent or pervasive that it creates an intimidating or threatening educational environment; or
- Has the effect of substantially disrupting the orderly operation of the school. Nothing in this section requires the affected student to actually possess a characteristic that is a basis for the harassment, intimidation or bullying. "Other distinguishing characteristics" can include but are not limited to: physical appearance, clothing or other apparel, socioeconomic status, gender identity and marital status. Harassment, intimidation or bullying can take many forms including: slurs, rumors, jokes, innuendos, demeaning comments, drawings, cartoons, pranks, gestures, physical attacks, threats or other written, oral, physical or electronically transmitted messages or images. "Intentional acts" refers to the individual's choice to engage in the act rather than the ultimate impact of the action(s). This policy is not intended to prohibit expression of religious, philosophical, or political views, provided that the expression does not substantially disrupt the educational environment. Many behaviors that do not rise to the level of harassment, intimidation or bullying may still be prohibited by other district policies or building, classroom or program rules.

This policy is a component of the district's responsibility to create and maintain a safe, civil, respectful and inclusive learning community and is to be implemented in conjunction with comprehensive training of staff and volunteers, including the education of students in partnership with families and the community. This policy is to be implemented in conjunction with the Comprehensive Safe Schools Plan that includes prevention, intervention, crisis response, recovery and annual review. Employees, in particular, are expected to support the dignity and safety of all members of the school community.

Depending upon the frequency and severity of the conduct, intervention, counseling, correction, discipline and/or referral to law enforcement will be used to remediate the impact on the victim and the climate and change the behavior of the perpetrator. This includes appropriate intervention, restoration of a positive climate and support for victims and others impacted by the violation.

False reports or retaliation for harassment, intimidation and bullying also

constitute violations of this policy.

The superintendent is authorized to direct the development and implementation of procedures addressing the elements of this policy, consistent with the complaint and investigation components of procedure 6590.

Sexual Harassment.
3207P

Procedure No.

Prohibition of Harassment, Intimidation, and Bullying

A. Introduction North River School District strives to provide students with optimal conditions for learning by maintaining a school environment where everyone is treated with respect and no one is physically or emotionally harmed. In order to ensure respect and prevent harm, it is a violation of district policy for a student to be harassed, intimidated, or bullied by others in the school community, at school sponsored events, or when such actions create a substantial disruption to the educational process. The school community includes all students, school employees, school board members, contractors, unpaid volunteers, families, patrons, and other visitors. Student(s) will not be harassed because of their race, color, religion, ancestry, national origin, gender, sexual orientation, including gender expression or identity, mental or physical disability, or other distinguishing characteristics. Any school staff who observes, overhears, or otherwise witnesses harassment, intimidation, or bullying or to whom such actions have been reported must take prompt and appropriate action to stop the harassment and to prevent its reoccurrence.

B. Definitions Aggressor – is a student, staff member, or other member of the school community who engages in the harassment, intimidation, or bullying of a student. Harassment, intimidation, or bullying– is an intentional electronic, written, verbal, or physical act that:

- Physically harms a student or damages the student's property.
- Has the effect of substantially interfering with a student's education.
- Is so severe, persistent, or pervasive that it creates an intimidating or threatening educational environment.
- Has the effect of substantially disrupting the orderly operation of the school.

Conduct that is "substantially interfering with a student's education" will be determined by considering a targeted student's grades, attendance, demeanor, interaction with peers, participation in activities, and other indicators. Conduct that may rise to the level of harassment, intimidation, and bullying may take many forms, including, but not limited to, slurs, rumors, jokes, innuendoes, demeaning comments, drawings, cartoons, pranks, ostracism, physical attacks or threats, gestures, or acts relating to an individual or group whether electronic, written, oral, or physically transmitted messages or images. There is no requirement that the targeted student actually possess the characteristic that is the basis for the harassment, intimidation, or bullying.

<http://www.k12.wa.us/SafetyCenter/BullyingHarassment/default.aspx>. Incident Reporting Form – may be used by students, families, or staff to report incidents of harassment, intimidation, or bullying. A sample form is provided on the Office of Superintendent of Public Instruction's (OSPI) School Safety Center Web site.

Retaliation – when an aggressor harasses, intimidates, or bullies a student who has reported incidents of bullying. Staff – includes, but is not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to extracurricular activities,

classified staff, substitute and temporary teachers, volunteers, or paraprofessionals (both employees and contractors).

Targeted Student – is a student against whom harassment, intimidation, or bullying has allegedly been perpetrated.

C. Relationship to Other Laws

This procedure applies only to RCW 28A.300.285 – Harassment, Intimidation and Bullying prevention. There are other laws and procedures to address related issues such as sexual harassment or discrimination. At least four Washington laws may apply to harassment or discrimination:

- RCW 28A.300.285 – —12 Education--Harassment, Intimidation and Bullying
- RCW 28A.640.020 – Sexual Harassment
- RCW 28A.642 – Prohibition of Discrimination in Public Schools
- RCW 49.60.010 – The Law Against Discrimination

The district will ensure its compliance with all state laws regarding harassment, intimidation or bullying. Nothing in this procedure prevents a student, parent/guardian, school or district from taking action to remediate harassment or discrimination based on a person's gender or membership in a legally protected class under local, state, or federal law.

D. Prevention

1. Dissemination In each school and on the district's Web site the district will prominently post information on reporting harassment, intimidation, and bullying; the name and contact information for making a report to a school administrator; and the name and contact information for the district compliance officer. The district's policy and procedure will be available in each school in a language that families can understand. Annually, the superintendent will ensure that a statement summarizing the policy and procedure is provided in student, staff, volunteer, and parent handbooks, is available in school and district offices and/or hallways, or is posted on the district's Web site. Additional distribution of the policy and procedure is subject to the requirements of Washington Administrative Code 392-400-226.

2. Education Annually students will receive age-appropriate information on the recognition and prevention of harassment, intimidation, or bullying at student orientation sessions and on other appropriate occasions. The information will include a copy of the Incident Reporting Form or a link to a Web- based form.

3. Training Staff will receive annual training on the school district's policy and procedure, including staff roles and responsibilities, how to monitor common area, and the use of the district's Incident Reporting Form.

4. Prevention Strategies The district will implement a range of prevention strategies including individual, classroom, school, and district-level approaches. Whenever possible, the district will implement evidence-based prevention programs that are designed to increase social competency, improve school climate, and eliminate harassment, intimidation, and bullying in schools.

E. Compliance Officer

The district compliance officer will:

1. Serve as the district's primary contact for harassment, intimidation, and bullying.
2. Provide support and assistance to the principal or designee in resolving complaints.
3. Receive copies of all Incident Reporting Forms, discipline Referral Forms, and letters to parents providing the outcomes of investigations.
4. Be familiar with the use of the student information system. The compliance officer may use this information to identify patterns of behavior and areas of concern.
5. Ensure implementation of the policy and procedure by overseeing the investigative processes, including ensuring that investigations are prompt, impartial, and thorough.
6. Assess the training needs of staff and students to ensure successful implementation throughout the district, and ensure staff receive annual fall training.
7. Provide the OSPI School Safety Center with notification of policy or procedure updates or changes on an annual basis.
8. In cases where, despite school efforts, a targeted student experiences harassment, intimidation, or bullying that threatens the student's health and safety, the compliance officer will facilitate a meeting between district staff and the child's parents/guardians to develop a safety plan to protect the student.

A sample student safety plan is available on the OSPI Web site:
<http://www.k12.wa.us/SafetyCenter/default.aspx>.

F. Staff Intervention

All staff members shall intervene when witnessing or receiving reports of harassment, intimidation or bullying. Minor incidents that staff are able to resolve immediately, or incidents that do not meet the definition of harassment, intimidation, or bullying, may require no further action under this procedure.

G. Filing an Incident Reporting Form Any student who believes he or she has been the target of unresolved, severe, or persistent harassment, intimidation, or bullying, or any other person in the school community who observes or receives notice that a student has or may have been the target of unresolved, severe, or persistent harassment, intimidation, or bullying, may report incidents verbally or in writing to any staff member.

H. Addressing Bullying – Reports Step

1: Filing an Incident Reporting Form

In order to protect a targeted student from retaliation, a student need not reveal his identity on an Incident Reporting Form. The form may be filed anonymously, confidentially, or the student may choose to disclose his or her identity (non-confidential).

Status of Reporter

- a. Anonymous Individuals may file a report without revealing their identity. No disciplinary action will be taken against an alleged aggressor based solely on an

anonymous report. Schools may identify complaint boxes or develop other methods for receiving anonymous, unsigned reports. Possible responses to an anonymous report include enhanced monitoring of specific locations at certain times of day or increased monitoring of specific students or staff. (Example: An unsigned Incident Reporting Form dropped on a teacher's desk led to the increased monitoring of the boys' locker room in 5th period.)

b. Confidential Individuals may ask that their identities be kept secret from the accused and other students. Like anonymous reports, no disciplinary action will be taken against an alleged aggressor based solely on a confidential report. (Example: A student tells a playground supervisor about a classmate being bullied but asks that nobody know who reported the incident. The supervisor says, "I won't be able to punish the bullies unless you or someone else who saw it is willing to let me use their names, but I can start hanging out near the basketball court, if that would help.")

c. Non-confidential Individuals may agree to file a report non-confidentially. Complainants agreeing to make their complaint non-confidential will be informed that due process requirements may require that the district release all of the information that it has regarding the complaint to any individuals involved in the incident, but that even then, information will still be restricted to those with a need to know, both during and after the investigation. The district will, however, fully implement the anti-retaliation provision of this policy and procedure to protect complainants and witnesses.

Step 2: Receiving an Incident Reporting Form

All staff are responsible for receiving oral and written reports. Whenever possible staff who initially receive an oral or written report of harassment, intimidation, or bullying shall attempt to resolve the incident immediately. If the incident is resolved to the satisfaction of the parties involved, or if the incident does not meet the definition of harassment, intimidation, or bullying, no further action may be necessary under this procedure. All reports of unresolved, severe, or persistent harassment, intimidation, or bullying will be recorded on a district Incident Reporting Form and submitted to the principal or designee, unless the designee is the subject of the complaint. Step 3: Investigations of Unresolved, Severe, or Persistent Harassment, Intimidation and Bullying All reports of unresolved, severe, or persistent harassment, intimidation, or bullying will be investigated with reasonable promptness. Any student may have a trusted adult with them throughout the report and investigation process. a. Upon receipt of the Incident Reporting Form that alleges unresolved, severe, or persistent harassment, intimidation or bullying, the school or district designee will begin the investigation. If there is potential for clear and immediate physical harm to the complainant, the district will immediately contact law enforcement and inform the parent/guardian.

b. During the course of the investigation, the district will take reasonable measures to ensure that no further incidents of harassment, intimidation, or bullying occur between the complainant and the alleged aggressor. If necessary, the district will implement a safety plan for the student(s) involved. The plan may include changing seating arrangements for the complainant and/or the alleged

aggressor in the classroom, at lunch, or on the bus; identifying a staff member who will act as a safe person for the complainant; altering the alleged aggressor's schedule and access to the complainant, and other measures.

c. Within two (2) school days after receiving the Incident Reporting Form, the school designee will notify the families of the students involved that a complaint was received and direct the families to the district's policy and procedure on harassment, intimidation, and bullying.

d. In rare cases, where after consultation with the student and appropriate staff (such as a psychologist, counselor, or social worker) the district has evidence that it would threaten the health and safety of the complainant or the alleged aggressor to involve his or her parent/guardian, the district may initially refrain from contacting the parent/guardian in its investigation of harassment, intimidation, and bullying. If professional school personnel suspect that a student is subject to abuse and neglect, they must follow district policy for reporting suspected cases to Child Protective Services.

e. The investigation shall include, at a minimum:

- An interview with the complainant.
- An interview with the alleged aggressor.
- A review of any previous complaints involving either the complainant or the alleged aggressor.

- Interviews with other students or staff members who may have knowledge of the alleged incident.

f. The principal or designee may determine that other steps must be taken before the investigation is complete.

g. The investigation will be completed as soon as practicable but generally no later than five (5) school days from the initial complaint or report. If more time is needed to complete an investigation, the district will provide the parent/guardian and/or the student with weekly updates.

h. No later than two (2) school days after the investigation has been completed and submitted to the compliance officer, the principal or designee shall respond in writing or in person to the parent/guardian of the complainant and the alleged aggressor stating:

- The results of the investigation.
- Whether the allegations were found to be factual.
- Whether there was a violation of policy.
- The process for the complainant to file an appeal if the complainant disagrees with results.

Because of the legal requirement regarding the confidentiality of student records, the principal or designee may not be able to report specific information to the targeted student's parent/guardian about any disciplinary action taken unless it involves a directive that the targeted student must be aware of in order to report violations.

If a district chooses to contact the parent/guardian by letter, the letter will be mailed to the parent/guardian of the complainant and alleged aggressor by United States postal service with return receipt requested unless it is determined, after consultation with the student and appropriate staff (psychologist, counselor,

social worker) that it could endanger the complainant or the alleged aggressor to involve his or her family. If professional school personnel suspect that a student is subject to abuse or neglect, as mandatory reporters they must follow district policy for reporting suspected cases to Child Protective Services.

Step 4: Corrective Measures for the Aggressor

After completion of the investigation, the school or district designee will institute any corrective measures necessary. Corrective measures will be instituted as quickly as possible, but in no event more than five (5) school days after contact has been made to the families or guardians regarding the outcome of the investigation. Corrective measures that involve student discipline will be implemented according to district policy and student discipline. If the accused aggressor is appealing the imposition of discipline, the district may be prevented by due process considerations or a lawful order from imposing the discipline until the appeal process is concluded. If in an investigation a principal or principal's designee found that a student knowingly made a false allegation of harassment, intimidation, or bullying, that student may be subject to corrective measures, including discipline.

Step 5: Targeted Student's Right to Appeal

1. If the complainant or parent/guardian is dissatisfied with the results of the investigation, they may appeal to the superintendent or his or her designee by filing a written notice of appeal within five (5) school days of receiving the written decision. The superintendent or his or her designee will review the investigative report and issue a written decision on the merits of the appeal within five (5) school days of receiving the notice of appeal.
2. If the targeted student remains dissatisfied after the initial appeal to the superintendent, the student may appeal to the school board by filing a written notice of appeal with the secretary of the school board on or before the fifth(5) school day following the date upon which the complainant received the superintendent's written decision.
3. An appeal before the school board or disciplinary appeal council must be heard on or before the tenth (10) school day following the filing of the written notice of appeal to the school board. The school board or disciplinary appeal council will review the record and render a written decision on the merits of the appeal on or before the fifth (5) school day following the termination of the hearing, and shall provide a copy to all parties involved. The board or council's decision will be the final district decision.

Step 6: Discipline/Corrective Action

The district will take prompt and equitable corrective measures within its authority on findings of harassment, intimidation, or bullying. Depending on the severity of the conduct, corrective measures may include counseling, education, discipline, and/or referral to law enforcement. Corrective measures for a student who commits an act of harassment, intimidation, or bullying will be varied and graded according to the nature of the behavior, the developmental age of the student, or the student's history of problem behaviors and performance.

Corrective measures that involve student discipline will be implemented according to district policy—student discipline.

If the conduct was of a public nature or involved groups of students or bystanders, the district should strongly consider school wide training or other activities to address the incident. If staff have been found to be in violation of this policy and procedure, school districts may impose employment disciplinary action, up to and including termination. If a certificated educator is found to have committed a violation of WAC 181-87, commonly called the Code of Conduct for Professional Educators, OSPI's Office of Professional Practices may propose disciplinary action on a certificate, up to and including revocation. Contractor violations of this policy may include the loss of contracts.

Step 7: Support for the Targeted Student

Persons found to have been subjected to harassment, intimidation, or bullying will have appropriate district support services made available to them, and the adverse impact of the harassment on the student shall be addressed and remedied as appropriate. I. Immunity/Retaliation

No school employee, student, or volunteer may engage in reprisal or retaliation against a targeted student, witness, or other person who brings forward information about an alleged act of harassment, intimidation, or bullying. Retaliation is prohibited and will result in appropriate discipline. J. Other Resources Students and families should use the district's complaint and appeal procedures as a first response to allegations of harassment, intimidation, and bullying. However, nothing in this procedure prevents a student, parent/guardian, school, or district from taking action to remediate discrimination or harassment based on a person's membership in a legally protected class under local, state or federal law. An harassment, intimidation, or bullying complaint may also be reported to the following state or federal agencies:
